## 144 Submarine Industrial Base Suppliers

The NEW YORK submarine industrial base has received approximately \$1,005,917,432.00 in purchase order awards which provided highly skilled, high-wage manufacturing jobs producing specialized components and materials. These products include:

- Combat System Electronics
- Steam Generator Components
- Control Valves
- Specialty Valves
- External Communications Equipment
- Electrical Equipment
- Specialty Electrical & Electronic Cable
- Mechanical Hardware
- Turbine Generator Components
- Electronic Equipment
- High Pressure Pumps
- Specialty Castings & Forgings
- Internal Communications Equipment
- Specialty Alloys
- Engineering Services
- Material Handling Equipment

Funding listed is the total amount spent or contracted to submarine suppliers over the past five years for major submarine programs. While the maps offer a good representation of the economic impact submarine programs have on communities, it is estimated that thousands of additional lower tier suppliers exist across the U.S. that are not represented.
